

PROJECT PLANNING PHASE

MILESTONE vs ACTIVITY LIST

Date	21 October 2022
Team ID	PNT2022TMID33700
Project Name	Project - Fertilizer Recommendation System For Disease Prediction

MILESTONE

Artificial Intelligence is used in many fields to increase productivity and also performance. It plays a major role in agriculture to increase yield. We may provide a large dataset to predict the disease with accuracy and give exact fertilizer for that disease. Most of the farmers are uneducated so we develop a system which is easily accessible by anyone.

ACTIVITY LIST

1. Planning is a crucial role in project management because it allows team members to schedule their time on the project.
2. This activity demonstrates how the team members assigned and completed various tasks!
3. In Project we can Split into the Four Step of Phrases are ➤
 Phase 1: Information Collection and Requirement Analysis ➤
 Phase 2: Project Planning and Developing Modules ➤ Phase 3:
 Implementing the High Accuracy Machine Learning Algorithm
 to Perform
 ➤ Phase 4: Deploying the Model on Cloud and Testing the Model
 and UI Performance.
